*Discover Glamping Sleepovers
with The Little Teepee*

The Little Teepee owners, Kristina Tripp and Jessica Peltzer

The Little Teepee may be one of the newest businesses to launch in 2020, but the idea has been in the works for years. Jessica Peltzer has lived in Mills Farm for five years, and she founded the company with her friend and business partner, Kristina Tripp, in November of 2020. Jessica says, “Kristina and I are a perfect team and not just because we’re both Iowa girls and Hawkeyes! We both have three girls and equally cherish making every moment with our own families memorable. We’re both so lucky to have incredibly supportive husbands and kids who always go along with us!”

Jessica has been thinking about different children’s party services for a long time. “Growing up, my mom always made a big deal about our birthdays. She passed away 10 years ago this year, and yet those memories from my childhood have stayed with me. They are one of the many reasons I have enjoyed celebrating not only my girls’ birthdays but all of the special moments in our family’s life.” Jessica knew if she started a business that it needed to be the right all-around fit, and The Little Teepee offers an experience that no one else in the Kansas City Metro offers.

The Little Teepee is a boutique-style glamping sleepover party service. The themes are customized and offered for both girls and boys. They bring everything needed and set up, stage, and style the event. Then, the team returns the following day to take everything down.

Jessica says, “Our goal is to create a truly unforgettable experience. We create the magic, so busy families can create memories

together. Our attention to detail definitely sets us apart. Whether it is your child’s first sleepover experience or a night of celebration with family and friends, The Little Teepee can guarantee a night all will remember!”

The Little Teepee has a number of themes to choose from, including Unicorn Dreams, Mermaid Vibes, Pampered Glampers, Purrfect Slumber, Happy Glampers, Game On, Let’s Go Camping, and Jessica’s personal favorite, Boho Chic Night. Boho Chic Night has been incredibly popular and loved by all ages – girls, tweens, teens, and even women looking for a unique girls’ night or bridal shower. Jessica and Kristina love the creative process of creating all the themes. They can customize any theme and will continue to add new ones. When asked what advice she would give to residents of Mills Farm, Jessica shares, “It is imperative, regardless of what you choose to do, to always be intentional. Make choices that align with your values and goals that you want to achieve, and you will find the right path.”

Jessica and Kristina certainly seem to be on the right path with The Little Teepee and are looking forward to what is in store for the company in 2021. To find out more information or book an experience, visit thelittleteepeeglamping.com.
